EXPERIENCE

Game Monetization Operations

Guangzhou Leniu Software Technology Co., Ltd.
Jul 2025 – Dec 2025

Analyzed player ecosystems and in-game metrics using Python and MySQL, designed monetization initiatives such as bundles and prize draws, and produced competitive-analysis reports.

Game Operations Intern

Unity Technologies (Shanghai) Co., Ltd.
Sep 2024 – Nov 2024

Evaluated partner games and supported their commercialization by implementing analytics tracking, monitoring performance, optimizing offer packages, and preparing titles for platform launch.

Game Operations Planning Intern

Changyou (Sohu)
Jul 2024 – Sep 2024

Supported new-game planning by monitoring Steam releases, researching competitors, analyzing player feedback and data, and producing system and user-experience reports.

Tencent Games Planning & Operations Open Course

Tencent Games
Aug 2025 – Oct 2025

Completed a seven-week game operations and planning programme, including an analysis of the brand positioning and marketing strategy of Reverse: 1999.

AIGC Workshop

School of Animation and Digital Arts, Communication University of China
Nov 2024 – Dec 2024

Collaborated with ByteDance's Jiangnan Studio and used generative AI tools for game-content planning and CG production based on Earth: Revival — 42 Visions of the Future.

Campus Media Operations Lead

Communication University of China Student Union
Jul 2021 – Nov 2023

Managed visual and copy production, content review, and publishing for a social-media account with 6,000+ followers, averaging 3,000+ views per post and reaching a peak of 10,300 views.

EDUCATION

Nanyang Technological University, Singapore
